To realise the vision of a world without hunger and malnutrition, the SUN Movement Principles of Engagement is guiding actors as they work in a multi-sectoral and multi-stakeholder space to effectively working together to end malnutrition, in all its forms. These principles are ensuring that the Movement is flexible while maintaining a common purpose and mutual accountability.

Making determinations as to the correct course of action is a prerequisite for ethical behaviour, this is particularly crucial when clearly established rules or laws do not exist. Simply put, acting ethically is thus not about following a strict set of rules, but by doing the “right” thing. By behaving in an ethical manner across all engagements in the Movement, the Movement’s integrity will support the achievement of its collective mission and goals.

The 2014 independent comprehensive evaluation (ICE) stressed the need for stewardship arrangements at all levels to manage the complexities of working within a multi-stakeholder environment. By 2016, the Movement’s stewardship arrangements (SUN Movement Coordinator, Executive Committee and Lead Group), anchored by the Movement’s Principles of Engagement, agreed on an ethical framework to support a multi-stakeholder working environment while leading on matters of transparency, integrity and accountability.

The SUN Movement Ethical Framework is for individuals in the Movement to use as a guide to ethical behaviour. The Ethical Framework ensures that space is provided for aspects of transparency and accountability of the Movement’s stewardship arrangements and support system, so that they can be easily assessed by those inside and outside of the Movement.

To support the framework, two ethics advisers are available, on request, to provide assistance to members requiring consultations on ethical dilemmas and/or requiring support in relation to the Ethical Framework and the work area of preventing and managing conflict of interest.

ETHICAL FRAMEWORK ASPECTS RELATED TO SUN COUNTRIES

The SUN Movement Strategy and Roadmap (2016-2020) includes the area of work titled, “Enabling an environment for effective delivery of results, that is true to the SUN Movement’s principles and includes safeguards and means to prevent and manage conflicts of interest”. SUN Governments are encouraged to develop country specific guidance on preventing and managing conflict of interest and this area of work aims to increase the capacity of individuals and institutions to do so.

In support of this work, a SUN Movement Conflict of Interest (CoI) group has been established to share knowledge, information, develop new ideas, and discuss challenges with a strong emphasis on country-level support. Progress in this area will be shared on the SUN Movement website within the Share & Learn pages.
