Bringing people together into a shared space for action

Ensuring a coherent policy and legal framework

A Mother and Child Food and Nutrition Technical Secretariat has been created in the Health Ministry to strengthen coordination. Formalised by Decree, this secretariat receives official government funding. Regional Nutrition Consultation Councils (CRCN) and Regional Food Security Councils (CRSA) are barely

Aligning actions around common results

Despite the medium and long-term objectives of the common results framework, the lack of workplans with measurable targets to guide implementation is an obstacle to their scaling up. There is no formal system for monitoring contributions to the collective progress of the On results multi-stakeholder platform. However, a new national nutrition information platform (PNIN) has been established with the full involvement of key stakeholders including the Department of Sectoral Statistics. Its website will disseminate and monitor results.

Financing tracking and resource mobilisation

Budget analysis of the multi-sectoral strategic plan 2016-2020 identified available funding and gaps in need of filling to be identified, in preparation for the donor roundtable. Lobbying of parliamentarians has led to the creation and effective funding of a budget line. The Government and donors have also announced increased allocations in order to buy therapeutic foods, to scale up the Infant and Young Child Feeding Plan (ANJE) and to operationalise the Technical Secretariat. However, the take-up rate of funds allocated to nutrition remains weak, due to cumbersome administrative procedures.
