<p>There is an active multi-sectoral and Multi-Stakeholder Platform (MSP). All MSP members have received capacity building in nutrition and food security issues.</p> <p>The MSP is monitoring implementation of the Roadmap and MSP members regularly share their experiences.</p> <p>Recognition of the SUN platform by the Government and parliamentarians is boosting commitment by government representatives and is increasing their awareness of food security and nutrition issues. This is also facilitating development of a tool to advocate for nutrition funding (budget analysis).</p>	<p>Significant efforts have been made but there is still a lot of work to do to operationalize legal frameworks and introduce mechanisms for assessment and contextual analysis of nutrition.</p> <p>However, the alignment of activities and the clarification of the areas of responsibility of stakeholders involved are timely.</p>	<p>The Roadmap (updated in 2018) provides a template for the Common Results Framework (CRF). There are several notable achievements including:</p> <ul style="list-style-type: none"> Capacity building for members of the national SUN platform; improvements to information sharing and coordination process; Involvement of civil society in food security and nutrition activities; Implementation of the "outdoor classroom" project, project to regulate the bush meat sector throughout Gabon, and effective introduction of "agricultural holidays". 	<p>From 2018 to 2019, various activities planned by nutrition-sensitive and nutrition-specific sectors received financial support from the Government and other funders.</p> <p>More efficient mechanisms for funding predictability and sustainability could be achieved through gradual disbursement of funding according to a budget timetable, and introduction of an effective and transparent framework for financial monitoring and evaluation.</p>
