INSTITUTIONAL TRANSFORMATIONS 2018-2019

The Nutrition Coordination Unit was created and the Head of the Unit appointed as the SUN Government Focal Point.

The six networks all have a coordination mechanism in place along with road maps.

Nationally, the Multi-Sectoral Platform (MSP) has met during the evaluation period.

Decentralized and satellite coordination bodies exist and are defined in the national nutrition policy.

The private sector and academic/research sector became operational during preparations for the national nutrition forum and the evaluation of the Multisectoral Nutrition Action Plan (PAMN) 2014-2018.

Cooperation around the national nutrition policy helped to forge supportive partnerships during the development of the new Framework for Economic Recovery and Sustainable Development (CREDD) 2019-2023.

The review of sectoral policies and budget analysis helped identify gaps in the political, economic, legal and legislative arena.

The budget analysis for the last five years demonstrated the state's efforts and its commitment to nutrition.

Several advocacy meetings have taken place with the network of parliamentarians for nutrition based on the results of analyses, policies and laws.

The alignment of actions across all sectors that make a significant contribution to improving stakeholder mapping and key interventions in nutrition.

Various SUN and sectoral meetings have helped to ensure that actions are aligned with the multisectoral plan.

However, further efforts are required to align the various sectors at government level and with certain key partners, both centrally and at the decentralized and satellite level.

Mobilising the network of SUN donors has helped align financial resources. However, the failure to organize round tables on funding the PAMN has prevented financial commitments or funding promises from being secured.

Financial monitoring has been strengthened in two ways: Retrospective analysis of the PAMN while it was being finalized and budget analysis which will allow the implementation of a budget tracking system.

Further efforts are required to develop a new plan in terms of costing, and in particular a sectoral and intersectoral gap analysis.

- ### 2019-2020 PRIORITIES
- Complete the evaluation of the PAMN 2014-2018 and propose the new plan for 2020-2024;
 - Develop multi-actor, multisectoral platforms both centrally and at the decentralized and satellite levels;
 - Develop the monitoring and evaluation and accountability mechanism for the new PAMN.
 - Organize sectoral nutrition groups to monitor specific performance in relation to nutrition;
 - Organize the round table to mobilize funding for the new PAMN 2020-2024;
 - Strengthen SUN networks.
