

### Demographic data (2010, WPP 2012)

Population:	9.9 million
Children under 5:	1.2 million
Population growth rate:	1.33%

### Nutrition data (DHS 2012)

Stunting:	21.9%
Wasting:	5.1%
Low Birth Weight:	19.1%
Overweight:	3.6%
Exclusive Breastfeeding:	39.7%

### National Nutrition Strategy Plan 2012-2017

Total Cost (5 years)	\$50.9 million
Annual Cost:	\$10.2 million
Per Capita Annual Cost:	\$0.9

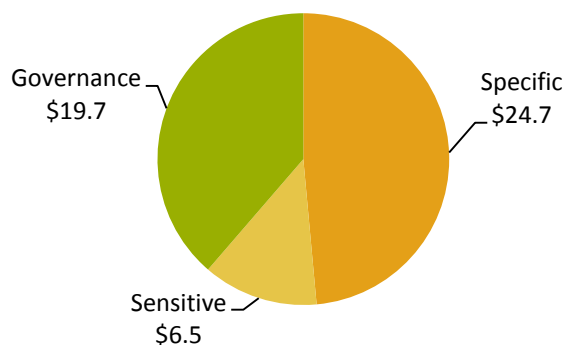

### Break-down:

Nutrition-specific interventions:	48.5%
Nutrition-sensitive approaches:	12.8%
Strengthening Governance:	38.7%

\* Annual Average Rate of Reduction, Data Source: WHO, DHS 2012

### Total Programme Costs by Programme Type (millions of USD)

## Coverage of Nutrition-Specific Interventions

Good nutrition practices	
Exclusive breastfeeding (0-6 months)	40.6% <sup>1</sup>
Complementary feeding with at least 4 groups per day (6-23 months)	No data
Vitamin and mineral intake	
Zinc treatment for diarrhoea	No data
Pregnant women attending 4 or more ANC visits (proxy for iron and folate supplementation)	No data
De-worming (12-59 months)	No data
Vitamin A supplementation (6-59 months)	36.0% <sup>2</sup>
Presence of iodised salt in the house	3.0% <sup>3</sup>

*Comprehensive data on coverage of treatment for acute malnutrition and micronutrient fortification are not available

### Haiti in the SUN Movement

Haiti joined the SUN Movement in June 2012 and appointed the Director of the National Coordination Unit of ABA GRANGO, the National Strategic Framework of the Haitian Government to fight hunger and malnutrition. The Technical Adviser of the Commission for the Fight Against Hunger and Malnutrition (COLFAM) was designated as the SUN Focal Point. COLFAM, chaired by the First Lady, includes key line Ministry representation and is responsible for the strategic direction of the ABA GRANGO.

### Haiti National Nutrition Strategy Plan

The National Nutrition Strategy Plan or *Plan Strategique Nationale de Nutrition 2012-2017* has six strategic areas, including protection of nutrition in emergencies.

## Cost of National Nutrition Strategy Plan

The total cost of the National Nutrition Strategy Plan is approximately \$51 million over five years. This is an average of approximately \$10 million per year, equivalent to a per capita annual cost of less than \$1.

### Costs of Nutrition-Specific Interventions Over 5 Years

Nutrition-specific interventions cost approximately \$25 million, representing almost half of the total cost of the plan.

### Costs for Nutrition-Sensitive Approaches Over 5 Years

Nutrition-sensitive approaches represent approximately \$6.5 million, or 13% of the total cost of the plan.

### Costs for Strengthening Governance Over 5 Years

Strengthening governance to implement nutrition-specific and nutrition-sensitive approaches accounts for approximately \$20 million, or 39% of the total cost of the plan.

## Priorities, Implementation & Accountability

The National Nutrition Strategy plan is fully supported at the highest levels of government and there is firm commitment to reducing malnutrition through preventative actions.

## Domestic & Donor Financing Commitments

In 2011, Haiti received \$750 million in development assistance to fight malnutrition and hunger. This robust financing is part of a dramatic upsurge in donor support following the January 2010 earthquake. Haiti recently created a new national budget line of 15 million gourdes (approximately \$353,000) to support the priority programs of ABA GRANGOU. To date, 4 million gourdes have been disbursed.

## Funding Gap

An in-depth examination of domestic and external funding streams to cover the costs of the National Nutrition Strategy Plan will be carried out to estimate the funding gap.
