Financing tracking and resource mobilisation

Tajikistan has taken part in the SUN Movement Budget Analysis Exercise, using the 3-step approach, with results available for the 2014, 2015 and 2016 budget. Future analysis will include donor contributions. The Ministry of Health and Social Protection and the Ministry of Finance have stepped up collaboration on the budget allocation process. In 2016, the Ministry of Health and Social Protection embarked on an exercise to define and cost an essential reproductive, maternal, neonatal, child and adolescent health and nutrition services package, which will contribute to a better understanding of costed estimations of nutrition-related actions (mostly nutrition-specific interventions).

Ensuring a coherent policy and legal framework

Effective implementation of laws and policies still remains a challenge. For the enforcement of the universal salt iodisation initiative, a situation analysis was conducted in 2016 and included a review of legal barriers that prevent inspection agencies from regularly monitoring and controlling small businesses in this regard. Policy-makers have shown increasing interest in addressing food fortification issues including flour fortification and salt iodisation. In 2017, a new working group on micronutrient deficiencies was created under the Council of Food Safety (chaired by the Deputy Prime Minister). This working group is mandated to review and amend the existing fortification law, which did not pass in 2016, into a law on the prevention of micronutrient deficiencies, through food fortification approaches.

Aligning actions around a common results framework

The first draft of Tajikistan’s multi-sectoral common results framework (CRF) was presented in July 2017, at the National Nutrition Forum. The next step is to elaborate the CRF, once finalised, into a detailed multi-sectoral plan of action which will outline sectoral targets, national and sub-national implementation plans, governance, accountability and coordination mechanisms, and financing mechanisms for tracking and reporting on on-budget and off-budget funds for nutrition, in addition to capacity strengthening components.

2017–2018 PRIORITIES

- Elaborate the CRF into a detailed, costed multi-sectoral plan of action for nutrition – with CRF targets fully integrated into sectoral plans and policies;
- Develop a multi-sectoral plan of action, with sector-specific implementation plans at the national and sub-national level;
- Emphasise governance, accountability, management and coordination mechanisms;
- Improve financing sources and mechanisms, in addition to tracking and reporting on on-budget and off-budget funds for nutrition;
- Ensuring capacity development, a monitoring and evaluation framework and costing of the overall plan, and its components.
