Financing tracking and resource mobilisation

Although there is significant funding from donors and international organisations towards nutrition in Yemen, which are mainly targeted towards the humanitarian response, there are no contributions from the Government due to the ongoing conflict.

Ensuring a coherent policy and legal framework

A review of whether nutrition-related policies and laws are enacted and effective has not taken place during the reporting period. Due to the ongoing conflict, humanitarian assistance remains the primary focus. Government agencies lack the operational costs to review or update any laws or regulations. The Ministry of Industry and Trade has monitored several trade laws and regulations in 2017 relating to the monitoring of quality of foods for children and their conformity with international standards. The 4th Five Year Plan for the Agriculture Sector (2012-2016) was assessed in 2017 by the Ministry of Agriculture, in a bid to improve its coverage.

Aligning actions around a common results framework

As a result of the newly established partnership with IFPRI, stakeholders will benefit from the available documents, plans, policies, and programmes who currently solely rely on needs assessment reports. This will further help in listing nutrition projects, with nutrition-sensitive and specific indicators and other relevant data, as this information will be updated regularly and made publicly available. MQSUN has been re-engaged to revisit the priorities of the National Plan of Action for Nutrition.
