<p>National Food and Nutrition Security Policy drafted, approved and being disseminated. Order 020 of 23 August 2018 on the creation and operation of the National Multisectoral Food Security and Nutrition Committee.</p> <p>A 2019 road map was validated and is implemented with a FAO funding for implementation.</p> <p>Monthly meetings held and one-off feedback activities undertaken. Workshop held for scientific actors.</p> <p>Prefecture-level committees to be established.</p> <p>First sessions of the National Committee are decisive for engagement, and designation of a SUN focal point is a priority.</p>	<p>The implementation of a National Plan for the Recovery and Consolidation of Peace in CAR 2017-2021 and its ensuing joint engagement framework, along with the implementation of the Permanent Secretariat, have been key to ensuring coherence across all departments.</p> <p>Nutrition is gradually gaining a place on the agenda. There is still enormous work to be done to get nutrition understood as a factor of development along with awareness raising around strong actions.</p>	<p>The Multi-Stakeholder Platform (MSP) remains the ideal context in which to align actions around common results.</p> <p>Sectoral actions undertaken on nutrition can, however, still be capitalised on and results that have a good impact disseminated.</p>	<p>Financial monitoring relies on a better understanding of the budget analysis. Although conducted in 2018, this exercise is still misunderstood by sector focal points, who are important actors in monitoring and mobilization.</p> <p>The 2019 results could contribute to a better ownership of finances in order to conduct resource mobilization actions. The convening of sessions of the National Committee will open up the path to this phase of the process.</p>

## 2019-2020 PRIORITIES

- Convene the first sessions of the CNMSAN and consolidate the multi-stakeholder platforms;
- Define a national strategic plan and budgeted operational plan;
- Develop the focal points; capacity and involvement in monitoring and resource mobilization;
- Gain an understanding of and enhance nutrition budgetary allocations;
- Develop advocacy tools and a communication plan;
- Mobilize resources for implementation of activities.
