Bringing people together into a shared space for action

Ensuring a coherent policy and legal framework

Aligning actions around common results

Financing tracking and resource mobilisation

INSTITUTIONAL TRANSFORMATIONS 2018–2019

2019–2020 PRIORITIES

- Carry out a cost of diet study;
- Adoption of the law on breast-milk substitutes by parliament;
- Round table for resource mobilization;
- Implementation of the nutrition training project “FORMANUT”;
- Upscaling, monitoring and evaluation of the CPNAs;
- Rollout of strategic documents on nutrition.

Data on funding for nutrition is not centralized in a way that allows gaps in funding for nutrition-related interventions to be estimated. However, each stakeholder evaluates its needs and funding gaps at an individual level. Commitments and promises have been made by certain donors, such as the European Union, as part of the Food and Nutritional Security Programme of the 11th EDF.
