**Political commitment has resulted in nutrition becoming a priority in the National Accelerated Growth and Sustainable Development Strategy.**

There is no Multi-Stakeholder Platform (MSP) but efforts are underway to establish one, although no official note has been signed in this regard.

An internal coordination mechanism has been recently established which enables regular meetings to be organized around different nutrition-related activities.

A Code on the Marketing of Breast Milk Substitutes and a food law are both in place. Regulatory texts governing the food law are currently being drafted.

A multi-sectoral action plan has been drawn up with the effective participation of the stakeholders and different ministries concerned, as well as partners and civil society.

Some actions reflective of national policies and priorities have been implemented (for example, revitalization of nutrition-friendly agricultural activity, PRESAN activities).

There is no joint mechanism to monitor the multi-sectoral action plan. Implementation is evaluated on the basis of the mid-term and annual reviews of each institution.

A three-year budgeted action plan is in place. More than 60 per cent of the funding for this plan’s activities are linked to budgets available with partners. The government has not yet allocated a budget line item to nutrition.

As there is no Multi-Stakeholder Platform, the monitoring of allocations and expenditure is done through financial and activities reports shared with the government and technical partners.
