#### Honduras

The information included here is based on the baseline study that Honduras completed in 2019 (all new SUN Movement members complete a baseline study).

- **In 2011 the Food and Nutrition Security (FNS) law was approved, which establishes the human right to adequate food and controls the regulatory framework to structure and coordinate FNS actions with clear objectives.**
- **The law mandates the conformation of the National System for Food and Nutrition Security (SINASAN), integrated by the National Council (CONASAN); the Inter-Institutional Technical Committee (COTISAN); the Monitoring Committee (COVISAN); and UTSAN as a technical body to assist SINASAN in the planning and coordination of the policy.**
- **At the regional level, there are FNS committees in eight regions.**

#### 2019 TOTAL WEIGHTED

### 2019–2020 PRIORITIES

- Develop and validate methodologies for planning and management at national and local levels to facilitate implementation of PyENSAN;
- Create tools for tracking public spending for FNS & implementation of strategic guidelines of the action plan.

In updating PyENSAN 2030 and with support from FIRST (FAO/EU), public programmes with different sources of funding that support/ will support FNS were mapped and projected.

A methodology for estimating public spending and investment in food and nutrition security was developed with State institutions which manage budgets of programmes and projects linked to the five pillars of FNS: a) availability, b) access, c) consumption, d) biological utilization, e) stability.

Between 2014 and 2018, the total public budget in current terms went from 9.890m USD to 10.725m USD.
