INSTITUTIONAL TRANSFORMATIONS 2018-2019

2019 TOTAL WEIGHTED 61%

Civil-society, private-sector, academic networks, parliamentarians, the United Nations and donors have all expanded and consolidated their position by creating executive secretariats and electing officers.

The participation of several Ministries (Population, Communications, Health, Agriculture, Livestock Farming, Fishing, Education, Water, Trade, Industry, Justice and Defence) along with the existence of budget lines for nutrition, has involved several decentralised technical departments in implementing programmes coordinated by Regional Monitoring and Evaluation Groups.

A budgeted Implementation Plan, combined with a Monitoring and Evaluation Plan (finalized in 2019) supports the National Plan for Nutrition Action (PNAN III).

Key actors in nutrition have engaged in advocacy to include nutrition in the new government's Emergency Programme for Madagascar (2020-2025).

The government has signed the implementation order for iodation and fluoridation of salt produced by the National Salt Committee (a multisectoral platform) and its application is monitored by region.

The National Alliance for Food Fortification (ANFA) and food standardization is operational.

Leading partners and bilateral/multilateral donors have aligned their projects with the PNAN III and the Common Results Framework (CRF) at the national level, while each region has developed its own CRF, whose objectives guide the implementation of local programmes and projects.

Regional Monitoring and Evaluation Groups organise meetings to monitor achievements and feed information on performance against indicators up to the national level.

They have access to recent data from the national Multiple Indicator Cluster Survey carried out in 2019, on the nutritional status of populations.

The PNAN III has been costed and a round table for all partners has been planned to ensure it is funded and implemented.

A budget analysis of specific domestic investments with a connection to nutrition has been carried out to support advocacy efforts with the government.

2019-2020 PRIORITIES

- Mapping of nutrition actors and interventions;
- National survey of micronutrient deficiencies;
- Donors' round table;
- Mid-term review of the PNAN III.
