Bringing people together into a shared space for action
Ensuring a coherent policy and legal framework
Aligning actions around common results
Financing tracking and resource mobilisation

Coordinating forums at the multi-sectoral level strengthened, such as the Inter-ministerial Committee for Social Issues at the national level and regional coordination spaces.

The round table for the fight against poverty monitors the state of child nutrition and analyses social spending.

Information which allows comprehensive multi-sectoral and inter-governmental tracking as well as systematised processes for disseminating information and preparing balances. Platforms such as the initiative against child malnutrition continue with advocacy and capacity strengthening activities.

An established model based on scientific evidence implements the most effective interventions.

Public nutrition policy is centred on a multi-dimensional and life-long focus. New standards were approved such as the Multi-sectoral Strategy to Combat Anaemia, July 2018, and technical standards were updated to strengthen operability of procedures for the prevention and treatment of anaemia.

Annual balance sheets on maternal and child health, tracking of Maternal and Neonatal Health Budgetary Programmes and the Nutritional Article or those carried out by Ministries have been monitored.

The importance of having a budget focusing on results-based management has continued (coherent nutrition programme, maternal and neonatal health). Structuring, operational definition and finance for key interventions have been essential.

Budget tracking instruments facilitated tracking of programming and budgetary execution of interventions in the State to improve nutrition. Budgetary execution opens up room for improvement and disaggregated information beyond the regional is needed. The round table for the fight against poverty makes it possible to keep child nutrition on the public agenda.

Information available for tracking implementation results. The Ministry of Social Development and Inclusion has promoted a space for disseminating and tracking indicators through a digital repository for multi-sectoral information, REDinforma.

2019-2020 PRIORITIES
- Promote and position territorial management to improve nutrition in early child development.
- Strengthen inter-sectoral, inter-governmental and public & private sector coordination for prevention & reduction of anaemia and chronic child malnutrition.
