Bringing people together into a shared space for action
Ensuring a coherent policy and legal framework
Aligning actions around common results
Financing tracking and resource mobilisation

INSTITUTIONAL TRANSFORMATIONS 2018–2019

2019 TOTAL WEIGHTED 69%

Increased awareness of the causes of malnutrition and the benefits of multi-sector approach as remedy. The 2019-2025 common results framework is being disseminated and stakeholder and district workshops are being held.

Mobilized Parliamentarians to leverage their powers to effect legislative, budgetary and policy issues. Advances in the promotion of maternal and child nutrition – creating the political commitment to take a pro-nutrition agenda forward by both Parliamentarians and Mayors/Chairpersons of District Councils.

Completed nutrition plans, endorsed at the highest level, with national nutrition targets and costed actions that guide collective implementation and resource allocation from 2019 to 2025.

Increased the salience of nutrition as a top policy, financing and institutional priority at national, regional and global levels.

Increased implementation of social mobilisation, advocacy and behaviour change communication actions aligned with national priorities.

More effectively communicated the economic, development and human impacts of malnutrition and the ways to improve it.

2019–2020 PRIORITIES

- Advocate for impact with data from SUN/REACH Mapping tool;
- Partner with Parliamentarians to ensure child and maternal malnutrition are high on the new Government’s agenda;
- Introduce and enact new policies e.g. Code on the Marketing of Breastmilk Substitutes;
- Establish regulations to promote proper food labelling;
- Establishing “SUN” school clubs;
- Prioritize fundraising and the popularization exercise to ensure successful implementation of the Multi-Sector Strategic Plan to Reduce Malnutrition in Sierra Leone that will cover the period 2019-2025.

Under five stunting (%) 26.4
Under five overweight (%) 4.3
Under five wasting (%) 5.1
Low birth weight (%) 14.4
0-5 months old exclusive breastfeeding (%) 47.2
Anemia in women 15-49 years (%) 48.0
