SUN MOVEMENT THEORY OF CHANGE

The Scaling Up Nutrition (SUN) Movement Monitoring, Evaluation, Accountability and Learning (MEAL) System was developed for the SUN Strategy 2016-2020. It identifies a wide range of desired results and associated indicators of progress across eight domains in which the SUN Movement seeks to catalyze change and deliver nutrition impact. These results correspond to the steps in the SUN Movement Theory of Change.

The Country Dashboard provides an overview of progress using a set of indicators aligned with globally agreed frameworks for nutrition and the SDG Framework. It is designed to support SUN Movement stakeholders at all levels to assess performance and inform strategic decisions towards ending all forms of malnutrition.

Sudan

Joined the SUN Movement in 2015

Population 40,533,000
(UNPD 2017)

Income class Lower middle income
(World Bank 2019)

Humanitarian risk class Very High
(INFORM 2019)

Data for Sudan are available for 70/85 (82%) MEAL indicators, with most covering the timeframe 2014-2018. Based on the data, Sudan is making progress with the existence of a multi-stakeholder platform and several networks as well as inclusion of all six WHA nutrition targets in the national plan. A high uptake of breastfeeding is also noted, although other child feeding and dietary intake indicators are a concern. More can be done for the enabling environment (especially the SUN processes), tracking government spending for nutrition (missing data), scaling up high-impact interventions and food supply, enacting legislation and addressing underlying drivers that contribute to the high prevalence of child stunting and wasting and the double burden of anaemia, diabetes and overweight/obesity among women.

Enabling Environment

As stakeholders from different sectors come together to build an enabling environment for improving nutrition, it results in a multi-stakeholder platform, functioning networks of nutrition actors, progress in the SUN Movement processes, integration of nutrition in development plans and improved nutrition information systems.

Finance for Nutrition

As multiple stakeholders mobilize resources, the results include increased spending for evidence-based high-impact nutrition actions from both national and external funding sources.

INDICATOR	SCORE	DATA SOURCE	SUN MEDIAN
2.1 National Budget Spending for Nutrition			
A) Budget Analysis Completeness (out of 4 key elements)	No data		3
B) Budget spending per child U5 for nutrition-specific interventions	No data		\$1.13
C) Percentage budgeted for nutrition-specific spending	No data		1.3%
2.2 Donor Funding for Nutrition			
A) Donor spending on nutrition-specific interventions per stunted child U5	\$9.02	R4D 2015-2017	\$9.02
B) Donor spending on nutrition-specific interventions per child U5	\$3.45	R4D 2015-2017	\$3.16
2.3 Agriculture Orientation Index	No data		0.19

Interventions and Food Supply

As multiple stakeholders mobilize resources and align their actions, the results include increased coverage of nutrition actions, increased diversity and quality of food supply, and equitable geographic distribution of nationally agreed core actions and implementation capacity for nutrition.

Enacted Legislations for Nutrition

Results achieved through better alignment include progress in the implementation and monitoring of legislations for nutrition.

INDICATOR	SCORE	DATA SOURCE	SUN MEDIAN
4.1 International Code of Marketing of Breastmilk Substitutes (level of implementation)	Few provisions	WHO 2018	Many
4.2 Maternity Protection Legislation	No	ILO 2013	Partial
4.3 Right to Food Legislation (level of constitutional recognition)	Weak	FAO 2017	Moderate
4.4 Restrictions on Marketing of Food/Beverages to Children	Not achieved	WHO 2017	Not achieved
4.5 Mandatory Food Fortification Legislation	None	GFDx 2019	2 food vehicles
4.6 Fortification Standards	None	GFDx 2019	2 food vehicles

SDG Drivers of Nutrition

Results achieved through aligned implementation also include changes in key drivers of nutrition, which are embedded in relevant sectors such as health, WASH, food systems, education, social protection and gender.
