

Scaling Up Nutrition (SUN) MOVEMENT

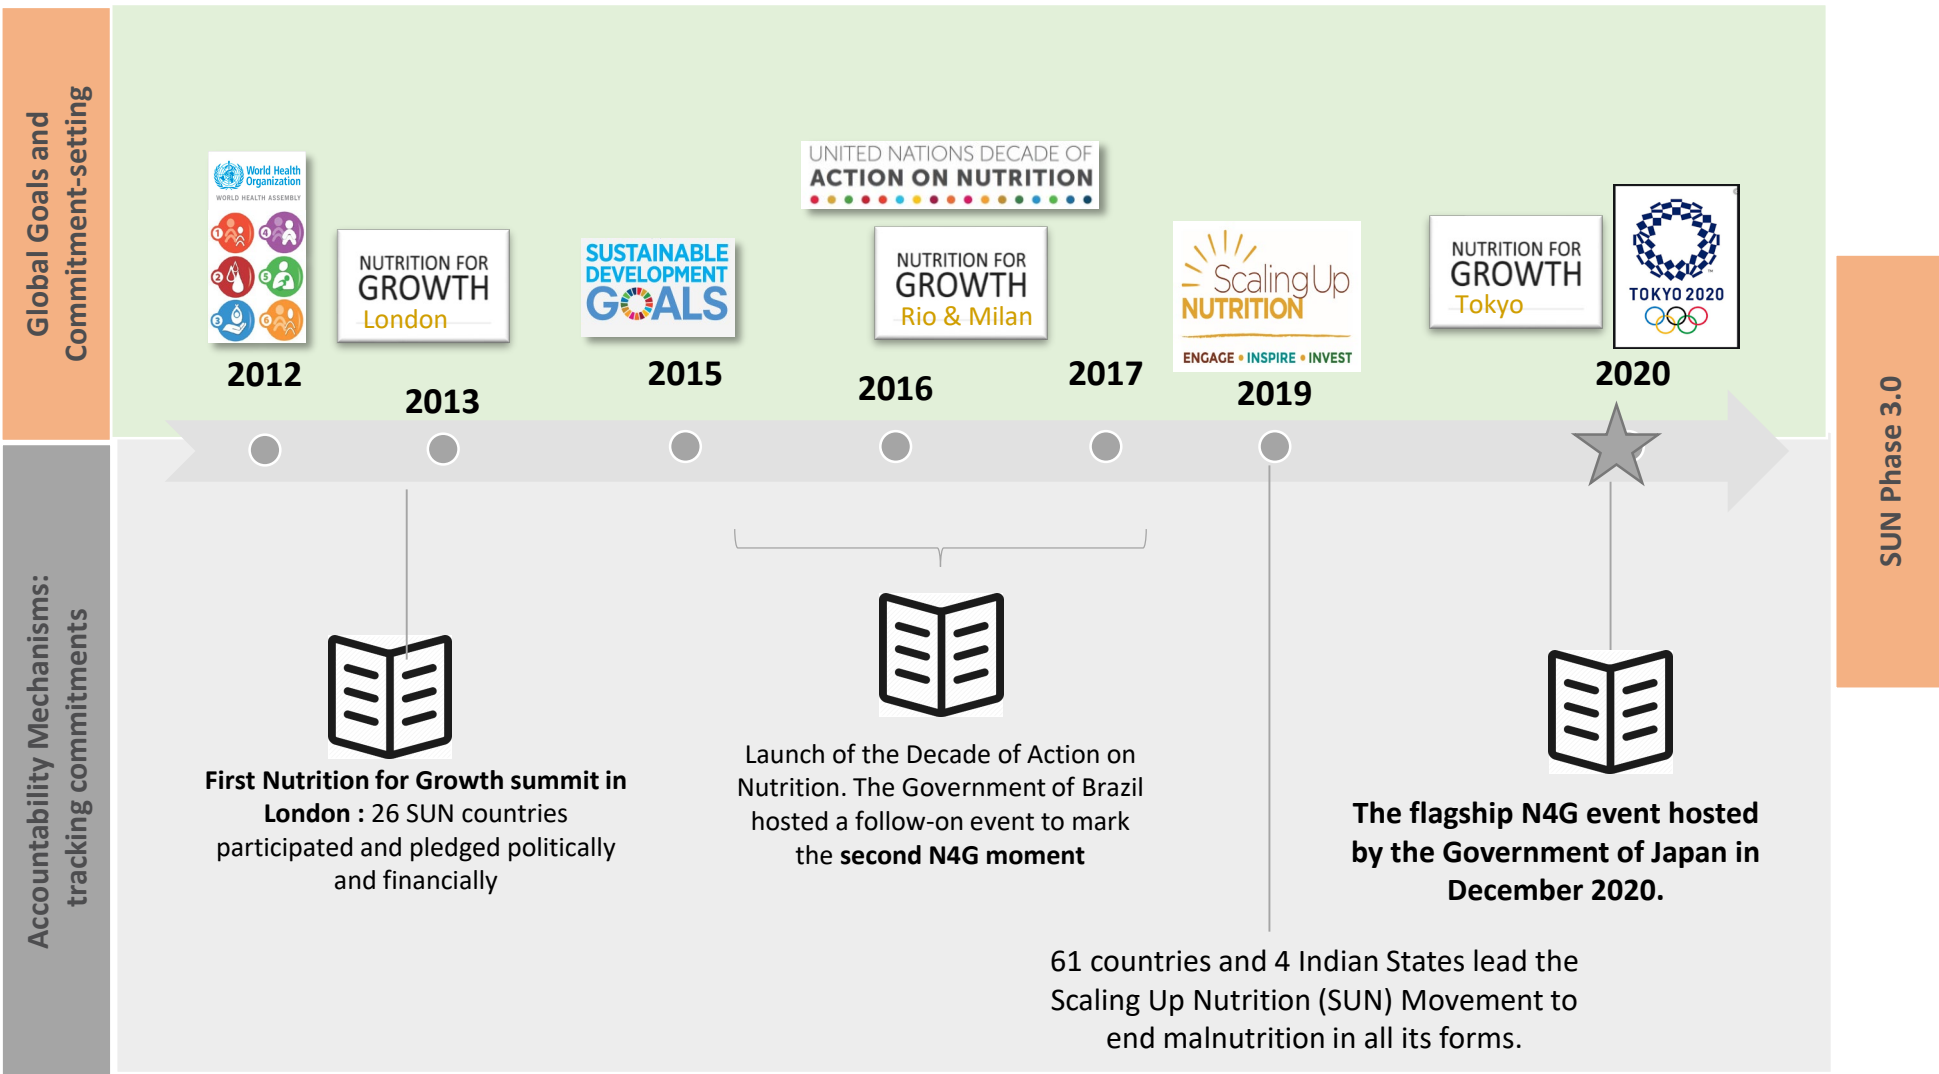

Nutrition For Growth Tokyo 2020

- Welcome
- Introductions
- Nutrition For Growth- Tokyo 2020
- Experiences from SUN Movement countries
- Q&A and Next Steps

- Video Message by Gerda Verburg, SUN Movement Coordinator
- Message by the Government of Japan, Host of the Nutrition For Growth 2020 Summit

1. Ensure SUN country stakeholders are informed of the opportunity N4G presents to advance their national nutrition agenda
2. Provide an opportunity for SUN country stakeholders to discuss and provide feedback on the N4G process, based on lessons learned from the 2013 and 2017 N4G processes
3. Present and discuss resources and support available for SUN countries to prepare SMART commitments

N4G: Maintaining Momentum in the Final Decade of the Sustainable Development Goals (SDGs)

Why is N4G important?

- Opportunity for country voices and needs to be heard and to shape the event and its outcomes
- Opportunity to galvanize commitments from governments, civil society, private sector, donor agencies and the UN to end malnutrition in all its forms
- Chance to accelerate the achievement of the objectives of the UN Decade of Action on Nutrition and the SDGs
- Stepping stone to Phase 3.0 of the SUN Movement

Nutrition for Growth: Goalkeepers Kick-off Event July 23, 2020

A high-level “springboard” commitment moment hosted by Bill and Melinda Gates at the foundation’s Tokyo Goalkeepers House on the eve of the Tokyo Olympics opening ceremony.

Event will include a small set of ‘early riser’ N4G pledges to build momentum toward a successful Summit in December.

Tokyo Nutrition for Growth Summit 2020 December 2020

The flagship N4G event hosted by the Government of Japan in December 2020. The event will convene a cross-section of stakeholders to announce all final financial and policy commitments and chart the path toward 2030 with concrete recommendations to the global community.

Key Stakeholders

- The Government of Japan
- Bill and Melinda Gates Foundation
- SUN Countries
- Donors
- UN agencies
- Wide range of nutrition stakeholders
- Civil society, Private sector
- SUN Movement

5 N4G thematic areas

- 1. Health:** Making nutrition integral to **UHC** for sustainable development.
- 2. Building Food Systems** promoting safe, healthy diets and nutrition, ensure livelihoods of producers, and are climate-smart.
- 3. Resilience:** Addressing malnutrition effectively in **fragile and conflict affected contexts**.
4. Promoting **data-driven accountability**.
5. Securing **new investment** and driving **innovation in nutrition financing**.

N4G Principles of Engagement and Commitment Guide

- Principles of Engagement for all stakeholders
- A Commitment Guide is available
- It outlines 5 Thematic Areas with background information
- Commitments should be SMART; can be political, financial, programmatic and impact
- The Guide includes examples of *'good commitments'*
- Accountability: Outcomes of the Summit will be included in 2020 Compact for Nutrition

Copies of the Commitment Guide are available on SUN website

What does a good commitment look like??

- N4G must result in **cross-sectoral and holistic commitments** that embrace all thematic areas proposed by the Government of Japan.
- They are all pieces to the same puzzle: investing in making nutrition central to food systems and universal health coverage is key to build peaceful and prosperous societies on a healthy and resilient planet.

UHC

Governments integrate WHO's Essential Nutrition Actions into the package of essential health services and scale up the coverage through the health system

Food Systems

Governments commit to Food Systems Action Plans aiming at improved accessibility of safe nutritious food through National Food-Based Dietary guidelines, policies and considering synergies and trade-offs with livelihoods and environment.

Resilience

Governments enact risk informed, shock responsive and emergency prepared policies, and action plans. Clearly define roles and responsibilities of all stakeholders, including a clear role for independent humanitarian actors (Nexus)

Securing New innovative Investments

X% increase in domestic spending on essential nutrition actions/high impact interventions and data systems strengthening, building on existing innovative mechanisms such as The Power of Nutrition and the Global Financing Facility to leverage domestic/private financing for scalability and sustainability

Data Accountability

Governments commit to Having evidence-based, costed nutrition plans, including data and monitoring and evaluation (M&E) components (comprising 4-6% of total investment) by 2025

- **Regularly convene** in-country nutrition stakeholders to discuss N4G in the lead up to the Summit, to **achieve a shared understanding** of the N4G vision, objectives and commitment process, and how you could leverage the N4G process to advance the national nutrition agenda.
- Bring together key stakeholders across different sectors to **jointly reflect on progress and challenges in implementing your national nutrition plan**, including by reviewing progress on **key targets and indicators** (which may include SGDs, WHA Nutrition Targets, previous N4G targets etc.). **Identify key areas where further investment and action is needed**. This should form the basis for N4G commitments by the government and other stakeholders.

- **Mobilize stakeholders around a joint plan to leverage the N4G opportunity** and advance your national nutrition goals through SMART commitments. This plan should identify advocacy strategies, key moments, champions and allies to ensure N4G contributes to increased political momentum for nutrition in your country ahead of the Tokyo Summit and beyond.
- Formulate **ambitious and SMART commitments** that addresses existing bottlenecks, integrates contributions of different sectors and makes a real difference for ending malnutrition.
- **Share your plans** with the SUN Movement Secretariat for dialogue and support, as needed. Relevant stakeholders may include representatives from the SUN Multi-Stakeholder Platform from across relevant government ministries, SUN Networks (Civil Society, United Nations, Donors and Business), as well as representatives from media, academia, parliamentarians, youth and Nutrition champions, as relevant.
